MISSION

OUR JOB is caring for people.

OUR PASSION is creating innovative patient handling solutions that improve the performance of Emergency Care Providers and enhance the quality of care that they provide.

OUR PURSUIT is delivering the best quality products, service, and support, with the highest level of integrity and professionalism, treating each customer just as we would want to be treated ourselves.

That’s The Ferno Way!

VISION

To take Ferno, the pioneer and innovator of patient handling equipment, to the pinnacle of the industry by producing safe, quality, customer-inspired products that exceed the expectations of those we serve.

VALUES

Quality
We will provide and deliver products that not only meet tangible needs, but exceed the expectations of the customer. Quality in customer care, support, personnel, products and processes will inevitably define our company and employees and ultimately drive our success.

Teamwork
Our approach is to offer a collaborative environment where team members are encouraged to share ideas and work together for productive solutions. Our goal is to gain commitment and employ our set of values.

Integrity
Our dedication is to give honest service, both internally and externally, and uphold our exceptionally high standard of excellence and deliver on our promises.

Empathy
Our focus is to listen; to the customer, to our fellow employees and to our competitors. We will achieve great things by listening and understanding. Our objective is to use what we have heard and translate that to proactive, creative solutions.

Innovation
We drive to discover new ways of creating value, to create new practices, processes, services and products of value internally and to the needs that benefit our customers.

Humility
We must all commit to continuous improvement and display a willingness to change, based on demand and feedback from our customers. Admitting our mistakes, learning from them and never underestimating our competition will aid in keeping our company revered and successful in the marketplace. We must be Champions for Change.

Customer Focus
Our drive to succeed as a business is directly related to our ability to interact, listen to and understand the customer’s needs and exceed their expectations for product performance and service. We must actively develop long-lasting partnerships with our customers and respond quickly and diligently to not only their needs, but to the needs of the overall marketplace. Customer focus and the highest level of customer satisfaction is the foundation of our business.

FERNO

On-Site Demonstration
Free on-site demonstrations are available for all Ferno® ambulance cots and stair chairs, so you can try before you buy. Our team of sales professionals will bring product directly to your service and demonstrate equipment functions and benefits. Call Ferno customer service to arrange a visit.

Service Options
Cot Care*: Hands-on training program designed to assist agencies with reducing their maintenance costs on Ferno cots, stair chairs, and fasteners. Conducted at the Ferno facilities in Wilmington, Ohio, or on site at your agency, the Cot Care® Program authorizes staff to perform Ferno equipment maintenance for their agency.

EM SAR*: Preventive maintenance, maintenance service and repair service is available nationwide through EMSAR, Ferno's authorized service provider. Skilled EMSAR service technicians are available in your area to come right to your location.

For EMSAR locations near you, or for Cot Care schedules, contact Ferno® customer service.

Financing
Ferno® provides a variety of financing and leasing options. Financing is available on the full range of Ferno products, and equipment is shipped directly from Ferno.

Extended warranties, preventive maintenance plans and other options can also be added to your lease or finance plan. Call 877-733-0911 or e-mail us at info@ferno.com for more information and a quote for your service.

Trade-In Program
Trade-in allowances are available on select models of Ferno® Ambulance Cots and Stair Chairs. Trade-ins are accepted for same-class product from Ferno or competitors. For more information and available discounts, contact Ferno customer service.

Operation Safe EMS™
To enhance your safety, Ferno® has partnered with McNeil & Company to produce the Operation Safe EMS™ Program. This CD-based, interactive training program is available free of charge and covers all aspects of operator and patient safety during patient transfer and transport, including techniques for safe lifting, the development of critical thinking skills, and an application and evaluation of the skills you learn from the program. The program materials are easily integrated into an individual or group training program.

To obtain a copy of the CD, visit www.OperationSafeEMS.com

Technical Support
Whenever you need technical specifications, have repair or maintenance questions, or need other information about your Ferno® product, contact our Technical Support Department at 866-986-3776 or by e-mail at qualityproducts@ferno.com. We have knowledgeable, dedicated Technical Support staff ready to assist you with any question you have about your Ferno® product.
Total Safety Solutions: Ferno’s Family of Products are designed, engineered, and tested for maximum operator safety with features and functionality that help maintain proper body mechanics and reduce provider stress and risk of injury. Ferno’s family of products also provide maximum patient safety with industry leading stability that reduces the chances for patient drops.

Every product goes through a rigorous process:

Engineering & Design
Every Ferno® ambulance cot and stair chair is designed and engineered for the optimal geometry to reduce situations that can cause tips, flips, and other incidents that lead to loss of control and stability. Whatever the patient size, whatever the scenario, Ferno® equipment provides maximum stability during ambulance loading and unloading, and while extricating and moving patients.

Ergonomics
Every Ferno® product is designed with innovative features to ensure you maintain optimum lifting posture regardless of the environment. For every situation, for every kind of move or lift, there’s a Ferno® product with unique features designed to help you reduce or eliminate strain, keep control, and maintain proper body mechanics.

Testing
When you’re on scene, in the middle of a call, your equipment has to work, without question, every time. All Ferno® products undergo rigorous testing in our test lab and in the field to meet our stringent standards and to ensure maximum performance in any environment and on every call.

Environmental Application
Every patient scene is unique, and every service has its own operating environment that includes geography, terrain, demographics, and protocols. Having the right piece of equipment for the situation is crucial to maintaining safety for you and your patients. That’s why Ferno® has created the most comprehensive selection of patient-handling products; products that provide solutions to your everyday challenges.

Education and Training
Safety goes beyond your equipment; it means the physical and mental preparation needed to safely respond to any scene. To help you do this, Ferno® has developed Operation Safe EMS™, a free education and training program that teaches physical development, safe patient-handling techniques, and scene evaluation. To get your free copy, register at www.OperationSafeEMS.com

Ferno® Safety Solutions:
- POWERFlexx® + Powered Ambulance Cot with unassisted 700 lb lift capacity
- EZ Glide® Tracked Stair Chair glides 500 lb down stairs
- 35X X-Frame Cot with EZ Pull™ Release System
- 93H H-Frame Cot with Level Transport & Multi-Position Load Frame
- 28Z Chair Cot with Unparalleled Maneuverability
- Najo® Series Backboards with Multiple-Environment Options
- Scoop™ EXL Stretcher for Safer Full-Body Immobilization
- Immobilization and Splinting Devices for Every Situation
- K.E.D.* Extrication Device for automotive and confined-space extrication
- Emergency Stretchers and Chairs for Fast, Limited-Access Situations
- Basket and Rescue Stretchers for Confined Space and Technical Rescue

The POWERFlexx®+ System provides advanced power management and an in-the-fastener charging system to keep you powered on every call, without having to carry around extra batteries or take them out to charge. As soon as you lock the cot into the fastener, the Integrated Charging System (ICS) is activated and charges the battery.

The POWERFlexx®+ Powered Ambulance Cot also provides 700 lb unassisted lifting. The cot does all the lifting, not the operator, reducing situations where operators may injure their back.

The POWERFlexx®+ delivers superior stability and center of gravity with a wide wheel base, proper positioning of the motor and battery, and carefully engineered X-frame geometry. This stability reduces your chance of flipping or tipping a cot, which reduces the chance of injury to you or your patients.

1. **700 lb Lifting Capacity** raises the patient weight without lift assistance.

2. **All-Metal Frame Construction** provides strength, long service life, and exceptional performance with heavy patients.

3. **Five-Position Drop Frame** and multi-position foot-end lift bar reduce the cot length by 15" for movement in confined spaces, and provide true 360° turning radius in the lowest position.

4. **Eliminate Battery Management** with the optional Integrated Charging System (ICS).

5. **Wide Thumb Controls** provide effective gripping and control from a variety of positions with or without gloves.

6. **Reflective Labeling** provides nighttime visibility for added safety (includes optional personalized graphics - see order form on P. 53).

7. **24 Volt DC POWERPack** with hydraulic actuator and dual-lifting cylinders provides smooth and reliable lifting.

**Complete Bariatric Solution** with bariatric push-pull handles, 1000 lb load capacity in the lowest position, and optional LBS Bariatric Board (see p.12)
Ferno’s 35X PROFlexx® X-frame Ambulance Cot provides industry-leading stability and safety. A longer, fixed front leg in the X-Frame and carefully-engineered geometry create a low center of gravity and minimal flex. This stability reduces your chance of flipping or tipping a cot, which reduces the chance of injury to you or your patients.

1. **Superior Stability and Center of Gravity** come from a longer, fixed front leg in the X-frame, a rigid C-channel running the length of the cot, and carefully-engineered frame geometry.

2. **Five-Position Drop Frame** provides better leverage for lifting and loading, reduces the cot length by 15" for movement in confined spaces, and provides true 360° turning radius in the lowest position.

3. **All-Metal Frame Construction** provides strength, long service life, and exceptional performance with heavy patients.

4. **Wider Bed Surface and Head Frame** provide comfort and support for various size patients and extra elbow room during intubation and CPR.

5. **Complete Bariatric Solution** with bariatric push-pull handles, 1100 lb load capacity in the lowest position, and optional LBS and LBS Jr. Bariatric Board (see p. 12).

The **35X EZ Pull Release System** reduces wrist strain and helps you position yourself before assuming the weight of the cot, so you can maintain optimum lifting posture and reduce strain on your lower back. EZ Pull handles are located on the upper and lower lift bars for operators of different heights.

Ferno’s exclusive 93H PROFlexx® H-frame Ambulance Cot provides operators with easy lifting and loading thanks to the adjustable foot-end load frame. Operators can achieve optimum lifting posture when raising the cot from bed height and when loading the cot into an ambulance, reducing situations that may cause injury.

The 93H PROFlexx® also features an exclusive transport position, which keeps the bed surface level to provide maximum stability and a lower center of gravity when rolling the raised cot with a patient on it. This stability reduces your chance of flipping or tipping a cot, which reduces the chance of injury to you or your patients.

Multi-position foot-end load frame helps operators achieve optimum lifting posture for safe lifting and loading, and keeps patients’ feet away from operators.

1. Exclusive Transport Position provides maximum stability and patient comfort when rolling the raised cot with a patient on it.

2. Multi-Position Foot-End Load Frame helps operators achieve optimum lifting posture for safe lifting and loading, and keeps patients’ feet away from operators.

3. One-Hand Drop Frame provides improved maneuvering in tight spaces, as well as an intermediate position for shorter users.

5. All-Metal Frame Construction provides strength, long service life, and exceptional performance with heavy patients.

Versatile Bariatric Solution with optional LBS Jr. Bariatric Board (see p. 12)

Loading Position provides height needed for loading into ambulance

Transport Position provides level rolling for maximum stability

Adjustable foot-end frame provides extra lifting leverage

Exclusive transport position provides maximum stability when rolling the raised cot with a patient on it.

The 28Z PROFlexx® Chair Cot provides maximum versatility for patient transport in confining environments.

The maneuverability and flexibility of transforming Ferno’s 28Z PROFlexx® from a cot to chair allows you to respond in confining environments such as tight hallways, narrow staircases, and small elevators without transferring the patient. The 28Z’s light weight, superior stability and load capacity, and flexible handling features reduce situations that may cause injury to you or your patient.

1 Versatile Patient Transport with easy transition from cot to chair position provides maneuverability and flexibility in challenging structural environments without the need to transfer patients.

2 Unparalleled Maneuverability with 48" length in chair position provides the shortest length of any cot in the market for working in confining areas such as tight hallways, small elevators, and narrow staircases.

3 Lightest-Weight roll-in style cot on the market at 69 lb, making it easier to operate.

4 All-Metal Frame Construction provides strength, long service life, and exceptional performance with heavy patients.

5 Ergonomic One-Hand Release mechanism changes cot into one of three locked positions (chair | intermediate | cot)

Fasteners on p. 17
The EZ Glide® Evacuation Stair Chair glides patient loads up to 500 lb down stairs without carrying or lifting. Ferno’s industry-leading one-inch track-to-ground clearance and front swivel wheels provide superior maneuverability over carpet and in confined spaces such as stair landings.

59T EZ-Glide® w/Track; ABS Panels.............................................................................................PT5900
59T EZ-Glide® Evacuation Chair .....................................................................................................PT5909

Additional Accessories on pp. 14-15
Restraints on p. 16

Evacuation Chair option is available for civilian use in emergency evacuation situations. Visit evacuation.ferno.com or go to page 51 for more information.

1” Track-to-Ground Clearance provides easier maneuverability over all surfaces, even with tracks deployed.

Extending Footrest and lower track angle increase patient sense of security.

All-Metal Frame Construction provides strength, long service life, and exceptional performance with heavy patients.

Removable ABS panels provide easy cleaning and disinfecting of the chair.

5-Position Lift Bar and handles reduce the strain of lifting and provide maximum control for operators of various heights.

There's no need to buy a separate, dedicated bariatric stretcher. Ferno® Bariatric Solutions allow you to adapt standard Ferno® cots on-scene to safely transfer and transport bariatric patients. The LBS and LBS Jr. Bariatric Board and Ferno® bariatric accessories attach quickly and easily to a Ferno® cot, and fold for easy storage when not in use. Compatible with the 35X, 93H, and POWERFlexx®.

The LBS Junior has the same great benefits of the LBS but features folding "wings" for better maneuverability through doorways. 29/42 in. width. Comes with Manta™ Transfer Sheet. Includes one set of restraint extenders.

- LBS Junior, POWERFlexx® and 35X: 0822184
- LBS Junior, 93H: 0821936

The LBS Bariatric Board quickly attaches to the Ferno® 35X, 93H, and POWERFlexx® Ambulance Cots. Comes with Manta™ Transfer Sheet. Includes one set of restraint extenders.

- LBS Bariatric Board: CA6100

The LBS Mattress provides added patient comfort and folds away for easy storage. LBS: 70 x 36 x 2 in. (22½ in. wide at head end)
- LBS Jr: 70 x 27½ x 2 in. (23½ in. wide at head end)

- LBS Mattress: CA6101
- Junior Mattress: 0314050

The Manta™ Transfer Sheet is quickly deployed and provides multiple handholds for moving patients weighing up to 800 lb.

- 45 x 78 in. (115 x 222 cm)
- Manta Transfer Sheet: PT1320

The LBS Carrying Case provides added convenience when deploying and storing the LBS.

- LBS Carrying Case for Mattress Only: CA6095
- LBS Carrying Case for LBS, Mattress, and Hardware: CA6096

The Bariatric Tow Package attaches to the cot's head-end load frame to allow the cot to be pulled up ramps by a winch.

- Bariatric Tow Package: 0822121

Ferno® Restraint Extenders provide additional length to regular size restraints for the transport of bariatric patients.

- 1 ft.: 0313942
- 2 ft.: 0313659
- 3 ft.: 0313670

Ferno® Bariatric Push-Pull Handles allow operators to walk in an upright position with optimum body mechanics, while they push or pull a cot in its lowest, most stable position. Quick-release mounting blocks allow fast and easy attachment and removal of the handles.

- Angled (head end or foot end), for cot: 0822147
- Straight (head end or foot end), for cot: 0822148
- Angled, for LBS Junior: 0822112
- Straight, for LBS Junior: 0822146

### Mattresses

All Ferno® mattresses are made from heat-sealed, heavy-duty vinyl for resistance to blood and bodily fluids, and for easy cleaning.

**Model 360:** Compatible with Model 35A, Model 30NM, and Model 93ES cots. Available in burgundy and orange. 73"x18"x3"  
*Available: 0313691, 0313692*

**Model 359-8 ( burgundy)**: Compatible with the Model 28 cot. Available in burgundy and orange. 51½"x17¾"x2½"  
*Available: 0313063, 0313099*

**Model 460:** Compatible with Model 35A, Model 30NM, and Model 93ES cots. Available in burgundy and orange. 71½"x17½"x4½"  
*Available: 0312720, 0313063*

**PROFlexx™:** Compatible with 35 and 93 PROFlexx® series cots. 73½"x19"x3" (21¼" wide at head-end)  
*Available: 0313920, 0314028*

**POWERFlexx™:** Suitable with POWERFlexx® cots. 79½"x19½"x3" (21¼" wide at head-end)  
*Available: 0313997, 0314029*

**28Z PROFlexx™:** Compatible with 28Z PROFlexx® cots. Head-End: 52½"x17½"x2½" Foot-End: 21½"x15½"x2½"  
*Available: 0314031*
417-1 Shoulder Harness
This primary-use patient restraint system is required in many states and vital for crash survival. Features two adjustable shoulder straps and an adjustable two-piece torso strap, with automotive-type metal buckles and hardware. Available in black, burgundy or orange.

Shoulder Harness Cot Restraint RS4170

430 Series Cot Restraints
Two-piece, primary-use patient restraints made of 2" nylon webbing with automotive-type metal buckles. Available in black, burgundy or orange.

Two-Piece 5’ Cot Restraint Strap RS4325
Two-Piece 7’ Cot Restraint Strap RS4327
Two-Piece 9’ Cot Restraint Strap RS4329

430P Series Restraint Straps
One- or two-piece, secondary-use patient restraints made of 2” polypropylene webbing with side-release, snap-lock, plastic buckles. Available in black, burgundy or orange.

One-Piece 7’ Restraint Straps RS4017
One-Piece 9’ Restraint Straps (burgundy only) RS4019
Two-Piece 5’ Restraint Straps RS4025
Two-Piece 7’ Restraint Straps RS4027
Two-Piece 9’ Restraint Straps (black only) RS4029

773 Series Speed-Clip Restraints
Two-piece patient restraints with swivel speed-clips for backboards with pins. Made of 2” nylon/polyester webbing with automotive-type metal buckle or polypropylene webbing with plastic buckle. Available in black, burgundy or orange.

Two-Piece 5’ Speed-Clip - Nylon/Polyester (burg, orange, blk) RS7733
Two-Piece 7’ Speed-Clip - Nylon/Polyester (black) RS7734
Two-Piece 7’ Speed-Clip - Polypropylene (black) RS7730

Backboard Strap Kits with set of three straps and a storage pouch.

One-Piece, 7, Nylon/Polyester(with pouch) (orange, black) RS4390
Two-Piece 5’ Speed-Clip - Nylon/Polyester (no pouch) (black) RS7731
Two-Piece 7’ Speed-Clip - Nylon/Polyester (no pouch) (black) RS7732

Fastrap™ Quick Restraint System
The Ferno Fastrap™ Quick Restraint System features a color-coded, 10-point, six-strap system designed to rapidly secure patients to backboards and other devices. Compatible with Ferno Millennia™, NAJO®, Wooden Backboards, and Scoop™ Stretchers.

Fastrap™ Quick Restraint System RS7700

Extremity Restraints
Extremity Restraints securely hold legs and arms of unconscious patients in place. Available in burgundy or orange.

Over-the-Lap Wrist Restraints RS4140
Wrist Restraints - Cot Sidearm RS4141
Ankle Restraints RS4150

Restraint Strap Retractor
Keeps patient restraints available, organized, and off the ground.

Restraint Strap Retractor, Pair RS4100

175-1 Cot Fastener
- Permanent wall mount for rear fastener rail
- Permanent floor mount for front antler
- Compatible with 30, 35A, 93ES, 35X, 93H, and POWERFlexx® Cots
Model 175-1 CF1751

175-2 Cot Fastener
- Permanent floor mount for rear fastener rail
- Permanent floor mount for front antler
- Compatible with 30, 35A, 93ES, 35X, 93H, and POWERFlexx® Cots
Model 175-2 CF1752

175-3 Cot Fastener
- Removable floor mount for rear fastener rail
- Removable floor mount for front antler
- Single positioning of floor mounts
- Both sections of fastener are removable permitting easy cleaning of the ambulance floor and side wall
- Compatible with 30, 35A, 93ES, 35X, 93H, and POWERFlexx® Cots
Model 175-3 CF1753

175-4 Cot Fastener
- Same as Model 175-3 but with extra set of floor mounting plates allowing alternate installation: Side and/or Center
- Compatible with 30, 35A, 93ES, 35X, 93H, and POWERFlexx® Cots
Model 175-4 CF1754

175-5 Cot Fastener
- Permanent wall mount for rear fastener rail
- Removable floor mount for front antler
- Removable front fastener allows easy cleaning of the ambulance floor
- Compatible with 30, 35A, 93ES, 35X, 93H, and POWERFlexx® Cots
Model 175-5 CF1755

185 StatTrac® Cot Fastener
- Straight-in track design eliminates cot drift
- May be installed for side or center positioning
- Compatible with 35A, 35 series, 93 series, and POWERFlexx® Cots
Model 185 StatTrac® Short (86") CF1850
Model 185 StatTrac® Medium (96") CF1855
Model 185 StatTrac® Long (103") CF1856

173-2 Cot Fastener
- Permanent floor mount for rear fastener hook
- Permanent floor mount for front antler
- Compatible with Model 28Z and Model 28 Chair Cots
Model 173-2 CF1732

173-3 Cot Fastener
- Removable floor mount for rear fastener hook
- Removable floor mount for front antler
- Compatible with Model 28Z and Model 28 Chair Cots
Model 173-3 CF1733

Ferno® Lightweight Value Cots

The Ferno® 35A and 93ES Ambulance Cots provide exceptional value for X-frame and H-frame cot users. These cots weigh under 80 lb and have a proven record of dependability with over 20 years of use by services all over the world. A full range of options and accessories (pp. 12-16) enhance patient care and help reduce situations that may lead to patient or operator injury.

StatTrac® Models are available for use with Ferno’s unique, heavy-duty track fastening system (see pp. 17).

Ferno® Value Stair Chairs
The Ferno® Model 40/42/48 Series Stair Chairs provide exceptional value to services looking for a basic stair chair. The chairs function well in confined spaces and feature a narrow profile in the folded position for easy storage. Vinyl-coated nylon seats are easy to clean and resist stains, blood, and bodily fluids.

Model 40 Stair Chair: Features two 5” stationary rear wheels to enable the EMT to move the patient over most surfaces with minimal effort. Long, multi-position, telescoping front handles help the foot-end operator maintain optimum lifting posture, and maneuver the chair without interference from the patient’s feet.

Model 40-OS Economy Stair Chair: An economy version of the Model 40, without the telescoping front handles.

Model 42 Stair Chair: Features two 4” rear stationary wheels and two 2” low-profile front guide wheels to allow the Model 42 to roll over most carpeted or hard surfaces. Four lifting handles with nonslip handgrips enable EMTs to move the patient safely and easily.

Model 48 Stair Chair: Identical to the Model 42, only 4” narrower. Ideal for use in airplanes, boats, restaurants and all areas where access is severely limited.

Emergency Stretchers
Ferno’s Folding Emergency Stretchers are simple, flat stretchers useful for transferring patients who have no suspected spinal injury. They feature lightweight aluminum frames and heavy duty, bacteriostatic, vinyl-coated nylon covers that resist stains, blood and bodily fluids. Each stretcher includes two 5’ quick-release patient restraints and is available in burgundy or orange.

Model 12 Emergency Stretcher: Exclusive slimline center hinges enable stretcher to fold for compact storage.
- Model 12: PT1200
- Model 385-A Storage Case: BG3850

Model 12-C Emergency Breakaway Stretcher: Stretcher halves separate for easy positioning without moving the patient.
- Model 12-C: PT1250
- Model 385-A Storage Case: BG3850

Model 11 Emergency Stretcher with Wheels: Convenient trigger-release, folding 4” wheels and posts can be used on the street.
- Model 11: PT1100
- Model 385-A Storage Case: BG3850

Model 9 Adjustable Backrest Emergency Stretcher with Wheels: Head-end frame section telescopes to shorten stretcher and backrest is adjustable to eight angles (0º to 75º).
- Model 9: PT9000
- Model 385-F Storage Case: BG3855

Emergency Stretcher Accessories
- Model 533 Wheel Cups, 7”: AA5333
- Model 532-4 Wheel Cups, 4”: AA5321
- Model 534 Recessed Post Cups: AA5334
- Model 535 Raised Post Cups: AA5335
- Model 559 Wall Hooks: AA5590

107 Series Stretcher Chairs
Ferno® Combination Stretcher Chairs are designed to serve as a wheeled chair, a stair chair, and a flat stretcher. Sturdy, lightweight aluminum frames provide long-term durability, while the vinyl-coated nylon covers wear well and are easy to clean and maintain. Each stretcher includes two S’ quick-release patient restraints and is available in burgundy or orange.

Model 107: Head-end posts double as lift handles and support legs, and fold for storage. Folding foot-end wheels snap into position.

Model 107
Model 385-A Storage Case
Model 107-B4: Fixed head-end posts provide support and fixed foot-end wheels allow easy maneuvering. Folding foot-end handles provide excellent grip.

Model 107-B4
Model 385-F Storage Case
Model 107-C: Fixed head-end posts with fixed wheels at both ends allow rolling like a chair or loading into a specialty ambulance. Folding handles at both ends.

Model 107-C
Model 385-F Storage Case
Ferno Rescue Seat
The Model 44 is constructed of tough reinforced vinyl that is easy to clean and resists blood and bodily fluids. Four handles assist in moving the patient short distances and the Rescue Seat can remain underneath the patient when placed onto a cot to avoid additional transfer. Includes a convenient storage pouch that attaches to the cot frame. Available in burgundy and orange.

Defibrillator Mounts

Increase the safety of your crews and patients during patient transport. An unsecured defibrillator can become a dangerous projectile in an ambulance compartment, resulting in severe injury or death to those inside. Avoid unnecessary risk with a Ferno® defibrillator mount.

Easy Installation onto a counter top or bench

Quick Release Mechanism allows easy locking and unlocking of a defibrillator for grab-and-go convenience on-scene

Swivel Base provides easy positioning and viewing of the defibrillator during patient care

M-200 Defibrillator Mount: The Ferno® M-200 Defibrillator Mount Kit is designed to secure the Physio Control® Lifepak® 12 and Lifepak 15 with or without bags.

Model M-200 0822238

M-201 Defibrillator Mount: The Ferno® M-201 Defibrillator Mount Kit is designed to secure the Physio Control® Lifepak® 12 with AC adapter.

Model M-201 0822239

P-300 Defibrillator Mount: The Ferno® P-300 Defibrillator Mount Kit is designed to secure the Philips® HeartStart MRx defibrillator.

Model P-300 0822240

NAJO® Backboards
NAJO® Backboards feature a unique blend of advanced plastics and foams, creating a strong, yet lightweight backboard. One-piece, HDPE construction is impervious to all bodily fluids, is easy to decontaminate, and provides 100% x-ray translucency. The boards are also buoyant and can be used to float a patient in water.

NAJO® Options
Color Options: NAJO® Backboards are available in standard colors: red, orange, blue, green and yellow. Custom colors can be accommodated for larger orders (50 qty minimum). Also available in a “split color” version, taking two of the standard colors and applying them to opposite ends of the backboard (25 qty minimum).

Custom Graphics: All NAJO® Backboards can be ordered with custom graphics. Place your name or logo on the board to distinguish your boards from other services’. Graphics are permanent and cannot be removed (see p. 53 for Graphics Order Form).

The Original Ferno K.E.D.®
The Original Ferno K.E.D.® is a versatile means of immobilizing and extricating patients from auto accidents or confined spaces. The wrap-around design provides horizontal flexibility for easy application and vertical rigidity for maximum support of the spine, neck, and head during extrication. The K.E.D.® immobilizes the torso, head and neck, enabling prompt extrication while minimizing risks of further injury. X-rays or advanced life-support procedures can be performed with the K.E.D.® in place.

The Ferno K.E.D.® includes wrap-around vest, Adjusta-Pad neck roll, two head straps and a carrying case. Heavy-duty, vinyl-coated nylon is durable and easy to clean and the K.E.D.® stores rolled up, ready for immediate use.

The Ferno K.E.D.® Pro
The new Ferno KED® PRO provides all of the confined space extrication benefits of the original KED®, with additional features for vertical rescue. The KED® PRO has a continuous, one-piece leg strap that runs up the spine of the KED® PRO and forms a continuous loop for connection to ropes and carabiners. Metal buckles provide additional security to ensure maximum patient safety during vertical extrication.

The KED® PRO also features a split chest flap and easy-release top strap for chest exposure required during examination. Head and chin straps are made with plastic-coated, closed-cell foam for resistance to body fluids, and multi-piece head-pads fasten together for easier filling of void areas. Includes backpack style carrying case with storage pockets.

Scoop EXL™ Stretcher
Ferno’s Scoop EXL™ Stretcher provides superior comfort and safety to patients who need spinal immobilization. The Scoop EXL™ eliminates the need for log-roll maneuvers, significantly decreasing movement to the cervical spine. The two hinged, interlocking pieces allow operators to bring the two halves together beneath the patient and gently scoop them up. The Scoop EXL™ is made from X-ray translucent, lightweight, high-impact, composite materials. Includes three restraints.

- Scoop EXL™ Stretcher w/ Burgundy Restraints PT6550
- Scoop EXL™ Stretcher w/ Black Restraints and Pins PT6560

A study in the Jan-March, 2006 issue of Prehospital Emergency Care Journal indicates the Ferno® Scoop EXL Stretcher “was found to be as effective as, if not superior to, the standard of care, a rigid long backboard” when used for spinal immobilization.

- learn more at www.ferno.com/scoopexl

Model 65 Scoop™ Stretcher
All aluminum scoop uncouples at either or both ends. Includes three burgundy or black restraints.

- Model 65 Scoop™ Stretcher PT6500
- Model 65 Scoop™ Stretcher w/ Black Restraints and Pins PT6520
- Scoop Storage Case, Orange BG3852

Universal Head Immobilizer
The Ferno® Universal Head Immobilizer features two PVC dip-coated, closed-cell foam head supports, a universal attachment base and two durable head straps. Provides minimal interference with X-ray, MRI, or CT procedures, will not absorb blood or bodily fluids, and fits all Ferno® wooden, aluminum and plastic backboards. Head supports can be used on standard backboards, or inverted for use on the Scoop™ Stretcher.

HeadHugger® Head Immobilizer (100/case) ............................................ IE4560

Wizloc® Cervical Collar
The universal design of the WizLoc® Cervical Collar fits a wide range of patient sizes ranging from 2 years old through adult. It features fast 3-step application and adjustment, with unique self-centering mandibular support and adjustable occipital support with keyhole lockpin. The WizLoc® provides greater control, greater patient comfort, and a better fit than other c-collars, which means safer conditions for the patient. Provides minimal interference with X-ray or MRI procedures and can be decontaminated for re-use up to 10 times. Available in high visibility neon pink, or OD green.

## Ferno® Vacuum Splints

Ferno® Vacuum Splints provide the best possible support with the least amount of effort. Durable, vinyl-coated nylon is easily conformed to an injured extremity as the evacuation pump extracts air, moving tiny polystyrene beads closer together to form a moldable cast. Hook-and-loop adjustable straps hold the splints securely in place.

**Saver™ Cardboard Splint**
Water-resistant, waxed cardboard construction and perforated for easy application. Minimal interference with X-ray or MRI procedures.

Saver™ Cardboard Splint (10 pk): SP2210

**Padded-Board Splints**
Complete set of six heavy-duty padded-board splints. Made of plywood with foam padding and vinyl covering sealed for easy cleaning and disinfection.

Padded-Board Splint: SP1872

**SAM® Splints**
SAM® Splints are made of 0.02” strips of soft aluminum and closed-cell foam material that can be easily contoured to provide suitable splinting for all extremities on all size patients. The coating does not stain and is reusable with proper cleaning. X-ray translucent.

- 36”, rolled: SP1122
- Finger Splint, 10/pk: SP1213

**Finger Splint Kit**
Soft aluminum splints are malleable and are easily molded. Kit contains 5 different splint sizes for a total of 25 splints. X-ray translucent.

Finger Splint Kit: SP9701
Pedi-Mate® Restraint System

The Pedi-Mate® Pediatric Restraint System quickly adapts to any ambulance cot to safely transport children ranging in size from 10-40 lb (4.5-18 kg). Fully-adjusting five-point harness system securely holds patient. Nontoxic, easy-to-clean vinyl rolls compactly for storage.

Pedi-Mate® .................................................. BB6780

Pedi-Pal® Child Transport Seat

The Pedi-Pal® Child Transport Seat transports pediatric patients 21-40 lb and up to 40” tall in an upright position. It can be placed on a Ferno cot, in a rearward-facing captain’s chair in an ambulance, or in the rear passenger seat of any licensed vehicle. Quickly folds flat for easy storage. Complies with FMVSS standards.

Pedi-Pal® Child Transport Seat ........................................ PT2220

Baby Pod™ II

The Baby Pod™ II is designed to safely transport infant-sized pediatric patients. Features a lightweight carbon fiber outer shell lined with a shock absorbent foam inner layer, and transparent shields for viewing the baby. Includes patient-positioning vacuum mattress with pump and carrying/storage case.

Baby Pod™ II .................................................. PT3119

Incubator Transporters

Ferno® can provide incubator transporter versions of our full line of cots including the POWERFlexx®, Model 35X PROFlexx® Series, Model 93H PROFlexx® Series, 28Z PROFlexx®, 28A, Model 30 Series, Model 26, and Model 12-2. The incubator transporters are modified with an interface for most Drager/Air-Shields, Airborne/OHMEDA, and ATOM incubators and are designed for ground and/or aeromedical use.

Please contact Ferno® for more information and pricing on the various incubator transporters. To provide you with a complete quotation we will need the following information:

> Make and model of the incubator to be used with the transporter
> Model of stretcher already being used for adult patient transport
> Make and model of aircraft, if applicable (i.e. BK117 or EC145)

Specifications for incubator transports vary per model. Available upon request.
**Medkids® Baby Board**
The Medkids® Baby Board helps maintain cervical neutral alignment in infants, with the self-contained Pneumatic Positioning Device (PPD). Accommodates a wide range of thoracic elevation requirements without extra padding and does not interfere with invasive or non-invasive equipment. Made of durable Dupont® Cordura® and is X-ray translucent.

Medkids® Baby Board BB6760

---

**Medkids® Pedi-Sleeve**
The Medkids® Pedi-Sleeve fits over standard adult backboards to adapt them to pediatric immobilization for patients ranging in size from 12 lb (5 kg) to 60 lb (27 kg). Features repositionable, crescent-shaped compressible head blocks, restraint straps, and a self-contained Pneumatic Positioning Device (PPD).

Medkids® Pedi-Sleeve BB6770

---

**Pedi-Pac™**
The Pedi-Pac™ serves as a spine immobilizer for transport, as well as a restraint system for children from 28 in. to 54 in. tall and weighing 20 to 90 lb (9 to 41 kg). Features cot-fastening loops, adjustable head support, color-coded straps, sewn-in lifting handles at both ends for easy handling in confined areas, head and chin straps, and a carrying case.

Pedi-Pac™ IE7800

Saver™ Oxygen Bags
Saver™ Bags provide exceptional value to EMS providers with a variety of features such as padded compartments for organizing supplies, heavy-duty zippers, and Cordura® nylon construction.

ERC Backpack
The Emergency Respiratory Backpack provides convenient organization and quick access to resuscitation equipment, gas-powered suction, and oxygen. Compartments are labeled and a flap provides quick access to the oxygen regulator. Carry the bag as a backpack for hands-free operation or as a duffle bag. The bag holds one “Jumbo D” cylinder or a Spiracle “DD” Lite carbon fiber cylinder. Available in green.

Ferno® Responder Vests
Ferno’s Responder Vests are strong and durable with the storage, convenience and visibility you need on-scene. Vests are packed with features including adjustable straps to ensure comfortable fit, reflective stripes on back and front, and a back pocket that holds six reflective assignment tags attachable by hook and loop. YKK® zippers and DuPont® Cordura® construction ensure long life. Machine washable. Available in blue and red.

5104 Responder Vest features five large, easily-accessible storage pockets with hook-and-loop closures.

5104 Responder Vest ......................................................................................................................................EV5104

5105 Responder II Vest features two deluxe front-zippered pockets with elastic loops and pouch, and five large, easily accessible storage pockets with hook-and-loop closures.

First Call Kit
The First Call Kit is designed for first responders on the scene. Treat injuries fast with bandages, dressings, equipment and supplies. Comes complete in a Saver™ First Responder Bag (see p.37). Visit www.FernoEMS.com and search “TK2100” for a complete list of kit contents.

First Call Kit TK2100

BLS Kit
The BLS Kit comes complete with all of your Basic Life Support needs and is packed into your choice of a Ferno® Trauma Response III Bag or Ferno® Professional Trauma Bag (see p. 36). Visit www.FernoEMS.com and search “TKS107” for a complete list of kit contents.

BLS Kit

ALS Kit
The ALS Kit comes complete with all of your Advanced Life Support needs and is packed into your choice of Saver™ ALS Bag or Ferno® Professional ALS Bag (see pp. 36, 37). Visit www.FernoEMS.com and search “TKS108” for a complete list of kit contents.

ALS Kit

BLS Replacement Kit
The BLS Replacement Kit replenishes the BLS and ALS kits on this page and includes all bandages and dressings listed with BLS Kits, plus eye wash, nitrile gloves, burn sheet, alcohol prep pads, antibiotic ointment, and bee sting kit.

BLS Replacement Kit FA0003

Please visit www.FernoEMS.com and search for the following kit numbers for a complete list of kit contents:
- First Call Kit: TK2100
- BLS Kit: TKS107
- ALS Kit: TKS108
Trauma & Airway Management

Designed for the professional first responder, this kit contains a complete selection of BLS supplies, plus an adult oxygen module built around Ferno’s BRAVO2™ all-brass regulator and bag valve mask with refill valve. Packed into your choice of the Ferno® Trauma/Air Management Bag III or Saver™ Trauma O2 Kit (pp. 38, 39). Visit www.FernoEMS.com and search “TK5111” for a complete list of kit contents.

Trauma & Airway Management Kit w/Ferno® Air Mgmt. Bag III          TK5111
Trauma & Airway Management Kit w/Saver™ Trauma O2 Kit    TK2110

Airway Mgmt. & Resuscitation

This kit contains all the necessary equipment and supplies for pediatric and adult resuscitation and airway management during patient transport. Features a D-size oxygen cylinder, a superior quality BRAVO2™ brass regulator with liter flow (0-25 LPM), and two DISS fittings, all packed into a Ferno® Trauma/Air Management Bag II (p. 38). Visit www.FernoEMS.com and search “TK5110” for a complete list of kit contents.

Titan Series Rescue Stretchers

The Titan Rescue Basket Stretcher is a redesign of the classic Stokes military-style stretcher. A one-inch diameter top rail makes it easier to handle when carried for extended periods, and reinforced double tubing at the head and foot ends provides extra strength. Features StrātLoad™ attachment points for secure attachment of lifting bridles, Durathene™ netting, and UHMW-PE Back Support. Surpasses the US Military's MIL-L-37957A specification for strength.

LocSa™ Connectors provide failsafe connection of two-piece stretchers

StrātLoad™ Attachment points provide secure bridle attachment

Traverse Rated 2500 lb
71 Series Basket Stretchers
The Model 71 Series Basket Stretchers are constructed of a high-density polyethylene shell supported by a permanently attached, heavy-duty, aluminum frame. Molded-in runners and handholds make them easy to handle, even over rough terrain. Brass grommets are strategically located for quick use with Model 418-1 Adjustable Lifting Bridle. Easily replaceable closed-cell foam pad is attached inside the stretcher for patient comfort. The stretcher is chemical, UV, rust, and corrosion resistant. Four two-piece S’quick-release patient restraints are included.

Advantage Basket Stretcher
The Advantage Basket Stretcher features a fully-internal stainless steel frame with a 11 kN (2500 lb) strength rating, and an outer HDPE shell attached to the top tube. This allows the secondary rail to be completely exposed to provide full options for tying in your patient for the most technical rescue. The Advantage also features our patented StratLoad™ attachment points and a replaceable closed-cell foam pad inside the stretcher for patient comfort.

Bradco Stretcher System
The Bradco Stretcher System is packed with features including heavy-duty, all-aluminum frame construction, a high-density polyethylene shell, and patient support and restraint system. The spring-suspended patient support and restraint system supports the patient several inches off the bottom frame for a smooth and comfortable ride. A double flap cover and restraint strap system provides maximum security. Load capacity rating of 11 kN (2,500 lb).

UT2000 Rescue Litter
The UT2000 Rescue Litter is an outstanding choice for backcountry, high angle and general rescue scenarios. It offers extreme adaptability to diverse situations and delivers high performance at an incredibly low weight. Made of two equal parts that snap together to form a basket litter that can also be used as a sled or cargo carrier. Each half acts as a pack-frame that allows the user to load it with the gear required for the rescue mission. Each frame comes complete with a set of lifting straps. Available in yellow, red, and OD green.

- **513-4 IV Pole** CA5134

**Eclipse Flashlight Holder:** Easily attaches to stretcher to provide light during patient care or illuminate your path during transport.

- **Eclipse Flashlight Holder** 0822145

**Patient Weather Shield:** Keeps patient dry in inclement weather.

- **Patient Weather Shield** Call for Availability

**Adjustable Lifting Bridle:** Features locking steel carabiners and independently adjustable bridle.

- **Adjustable Lifting Bridle** RS4199

**Floatation Collar:** Attaches to stretcher to provide 45 pounds of buoyancy during water rescue.

- **Floatation Collar** CA4710

**Traverse Hard Eye Litter Bridle:** Compatible with any style litter.

- **“O” right for top tie-in point is rated 134kN (30,000 lb)**

- **Hard Eye Litter Bridle** RE1508

**Traverse 540°™ Rescue Belay**

- **UL™ Certified to NFPA 1983 (2001 Ed) General Use**
- **Passes BCCTR’s Belay Competence Drop Test Criteria**

Developed specifically to meet the needs of rescue system belays, the 540°™ Rescue Belay is a self-locking device that meets demanding drop-test criteria (able to hold falling loads quickly while limiting the peak force). This well-engineered device is easy to rig and the symmetrical design reduces the risk of improper loading. A built-in release lever releases the tension on the belay rope, eliminating the need for a release hitch.

- **Small Belay:** Designed for use with kernmantle rescue ropes from 11.5 to 13 mm. Weight: 1 lb 6 oz (624 g). MBS: 5,171 lb (23 kN).

- **Large Belay:** Designed for use with kernmantle rescue ropes from 11 to 11.6 mm. Weight: 1 lb 6 oz (624 g). MBS: 6,070 lb (27 kN).

- **Traverse 540° Rescue Belay** RR0100

**F.R.E.D.**

**Ferno® Rescue Emergency Dummy**

The Ferno® Rescue Emergency Dummy (F.R.E.D.) is the ideal training aid to simulate handling and carrying a person during rescue situations. The dummy can be filled with a sand/sawdust mixture up to 121 lb to simulate the weight of an adult and is 57” tall. F.R.E.D. is made from heavy-duty, rip stop PVC with heavy-duty stitching that is UV resistant and water repellent. Foot heels are reinforced for dragging and a ring of Velcro® on the abdomen section and hands helps keep F.R.E.D. secured when being moved.

- **Ferno® Rescue Emergency Dummy** 0822127
**Traverse® Rescue Stretcher (TRS)**

Designed and constructed for both horizontal and vertical casualty evacuations. The lightweight and compact roll-up design makes this stretcher ideal for high-angle and confined-space rescue, as well as backcountry wilderness and helicopter operations. The wrap-around concept gives the patient a feeling of security and protects arms and sides from injury during evacuation procedures.

**LifeSaver**

The Ferno® LifeSaver Stretcher is a modern version of the traditional Neil Robertson stretcher. Designed to provide quick, easy use in horizontal and vertical lift situations where minimum bulk is important. Features full-length, 5 mm ribs interwoven by tough 1000 denier, high-tenacity nylon fabric to provide full body splinting in a very narrow patient package.

**Tablu Tri-Fold Stretcher**

The Tablu Tri-Fold Stretcher represents the ultimate in simplicity and durability. It is ideal for vehicle extraction because of its compact size and rapid employment. The Tablu is made of lightweight aluminum and has zero risk of the fire hazards, cracking, warping, and gouging that’s common with plastic and composite boards in tactical and vehicle operations. The Tablu has generous handholds and accepts all common strap systems.

Cirque II Patrol Fanny Pack

The Cirque Patrol Fanny Packs are made for patrollers who like to go light and fast! Numerous pockets and double-loop elastic retainers organize gear and keep it where you put it. A large bottom pocket with compression straps can store a bailout rope or light jacket and the waist belt has pockets that can be reached while wearing the pack. Features a personal escape-line compartment, compression straps and a built-in key-chain holder. For heavy loads, an optional shoulder harness attaches to the pack and provides better weight distribution. Available in black/ black or black/red.

Sith 50 SAR Pack

The Sith 50 SAR is an Alpine-style pack with 3,050 cubic inch capacity for patrollers who need a lot of room, or for serious technical rescue specialists. The internal frame incorporates a polyethylene framesheet along with two aluminum stays, giving you superb stability. The coated 405D rip stop nylon is tough and water-resistant. Features include snowboard straps, shovel pouch, fixed top lid with lash straps, dual daisy chain, two ice-axe loops, hydration-system pocket, and a shoulder harness keeper. Available in orange.

Kigali Backpacks

Designed as a medical pack for Ski Patrol, the Traverse Kigali organizes and carries equipment for anyone responding away from the roadside, whether on foot, skis, ATV, or mountain bike. Multiple pockets organize equipment for efficient access. The large top-opening main compartment has additional compartments for large dressings, hydration systems and includes a large sleeve with retaining strap to safely hold a “D” size oxygen cylinder. Two external pockets are configured with double-elastic loops and pockets to organize small items. A full suspension system with aluminum stays, padded shoulder straps, and waist belt lets the pack ride comfortably all day, even when fully loaded. Built-in rain cover protects a loaded pack in wet conditions. Available in black/black or red/black.

Traverse Rescue® Polar 75 Boat

The Traverse Rescue® Polar 75 Boat is designed for swiftwater rescue, ice rescue, or can be used as a sled on ice and snow. It is constructed of military grade Hypalon® fabric to provide durability in extreme environments for resistance to cuts, scrapes, tears and abrasions. The fabric is also resistant to sun, oil, grease and solvents. It takes 20 seconds to deploy when inflated with a single SCBA air tank. One inflation point inflates 3 internal air chambers. Open end design at bow and stern provides easy access to the transport floor from the water and provides a viewing window to the victim for rescuers sitting on the boat.

The Polar 75 Boat has 6 tow rings that can withstand 2500 pounds of pressure and provide anchor points for swift water rescue or towing the boat across ice and snow. There are also 16 interior grab handles and 6 carry handles providing plenty of handholds. It comes with a durable carrying case for easy storage and two double-sided paddles.

Terms of Sale

Government-Funded Agencies will be granted ‘Net 30 Day’ Open Accounts by providing the following information:

1. Name of government agency
2. Telephone and FAX numbers
3. Billing address (must be domestic location)
4. Shipping address
5. List of authorized purchasers (if restricted)
6. Purchase-Order number requirements

Payment may also be made using Federal Smart Pay Credit Cards, which will be charged at the time your order is shipped.

Individuals and all others are expected to pay at the time the order is placed. Ferno welcomes credit cards (American Express, MasterCard, or Visa), and checks and money orders in U.S. dollars. Sorry, no C.O.D.

Bids or Quotations

You can mail, fax, or email bids or quotations to: Bid Department, Ferno-Washington, Inc., 70 Wel Way, Wilmington, Ohio 45177; 888-388-1349 fax, or email bid@ferno.com.

Freight Policy/Shipping

All orders will be shipped by the most efficient and cost-effective ground transportation (UPS, DHL, truck, or USPs). Orders are shipped F.O.B. Wilmington, Ohio. Shipping charges are prepaid and will be added to the invoice. Air freight or other special shipping arrangements can be made at the customer’s request. Special shipping charges are prepaid and will be added to the invoice. Special-order and out-of-stock items will be back ordered and shipped as soon as possible; the customer will be notified of back orders. Partial orders will be shipped unless the customer provides other instructions.

Call Ferno for current shipping rates and to obtain a shipping quote.

Returning Merchandise

Please report any shipment error immediately upon receipt by calling Ferno Customer Relations at 877-733-0911. If we make an error filling or shipping your order, we will gladly rectify the mistake at no cost to you. Prior to returning any merchandise, contact Ferno Customer Relations for a Return Material Authorization Number and a return shipping address, and be sure to have your invoice or packing slip available. Note: Returned merchandise must be sent freight prepaid and must be received in new and salable condition. Items returned because of customer preference are subject to a 20% restocking fee. Some goods may not be returned for credit. Such goods include sterilized items, rubber items, items more than 90 days old, and special orders.

Damaged Goods Claims

All claims for merchandise that is damaged during transit must be made by the customer directly to the carrier within 10 days of receipt of goods. Please save all boxes and packing material until you have filed your claim.

Mailing Preference

Periodically we will mail or Email you information and offers for Ferno products. If you do not wish to receive such mailings, call Ferno Customer Service at 877-733-0911 to be removed from our mailing list.

Conditions of Sale

Ferno-Washington, Inc. (Ferno) reserves the right to accept or reject any and all orders, regardless of the manner in which the order is made. Orders become valid, and the sale shall be deemed made in Wilmington, Clinton County, Ohio.

All sales are subject to the laws of the State of Ohio and the venue for all disputes shall be in the courts of Ohio. Any terms or conditions set forth in the buyer’s purchase order shall not materially alter terms and conditions set forth herein.

Disclaimers

Photos of products are subject to change and may differ from the exact model numbers. Contact Ferno Customer Service for the latest features and accessories included with specific model numbers. General specifications are rounded to the nearest whole or half number. General specifications are subject to change.

Limited Warranty

Ferno products are warranted to be free from defects in material and workmanship for a period of one year, except as follows:

- External finishes (gelcoat, paint, powdercoat, decals, etc.) are warranted for 90 days.
- Soft goods (webbing, vinyl, fabric, foam, etc.) are warranted for 90 days.
- Second stock product and product purchased from consignment inventory are warranted for 90 days.
- Ambulance cots and ambulance transporters (except external finish and soft goods) are warranted for 2 years.
- EZ Glide® Chairs are warranted for 2 years.
- S9-E Evacuation Chairs are warranted for 15 years.
- EMS bags (replacable bottom excluded) are warranted for lifetime replacement. (Damage caused by accident, abuse, misuse or improper care will be repaired at a reasonable charge for which you will be informed prior to the repair work being done.)
- Backboards are warranted for lifetime replacement. (Damage caused by accident, abuse, misuse or improper care will be repaired at a reasonable charge for which you will be informed prior to the repair work being done.)
- Integrated Charging System (ICS) is warranted for 2 years.

Ferno repairs are warranted for 90 days from the date of repair.

This limited warranty applies only when you use and care for the product as described in the instructions provided with the product. Improper use and care may void this warranty. The warranty period begins the date the product was first purchased by you as the original end-user or the date you as the original end-user receive it if you have proof of the delivery date. This Limited Warranty is not transferable or assignable in any manner. Shipping charges are not covered by this limited warranty. Ferno is not liable for shipping damages or damages sustained through using the product.

Non-Ferno products sold by Ferno retain the product manufacturer’s original warranties and guarantees. Such warranties and guarantees, if any, are solely those of the product manufacturer. Ferno offers no warranties or guarantees of any kind additional to those of the product manufacturer, nor does Ferno assume any liability for products manufactured by others.

In addition to our standard warranty, extended warranties are also available for many products. At the time you purchase your Ferno emergency product you can purchase an extended warranty for your cot for an additional fee. These extended warranties include service and repair for the term of the extended warranty and can also include preventative maintenance services. Call us at 877-733-0911 or e-mail us at info@ferno.com for more information and a quote for your service.

Limitation of Liability

If a product is proven defective, Ferno will repair or replace it, or, at its option, refund the item’s purchase price. In no event is Ferno liable for more than the selling price of the product. The purchaser accepts these terms in lieu of all damages.

Except for the limited warranty above, Ferno makes no other warranties, either expressed or implied. Ferno makes no implied warranties of merchantability and fitness for a particular purpose for its own product or for the products of others. In no event will Ferno be liable for any indirect or consequential damages sustained in connection with the delivery, use, or performance of its products.

Under breach of limited warranty any legal action for breach of the limited warranty must be filed within one year of the date the breach is or should have been discovered.

Limited Warranty Claims and Disputes

Contact Ferno Customer Service promptly if you receive a product from Ferno that you suspect is defective. A representative will assist you with the claim procedure. Before sending any product to Ferno obtain a return authorization number from Ferno Customer Service.
