70 Years Delivering Excellence

FERNO is extremely proud to have been supporting operators, organizations, and deceased persons since 1955, from the early innovations of the worlds first one-person mortuary cot, to the groundbreaking powered mortuary cots to make life easier for professionals today.

We understand the mortuary industry, locally and around the world. Through ourselves and our global partners we aim to learn, to develop and to improve - all with the aim of better supporting those working in the mortuary industry, and the patients it supports.

Our unwavering commitment to building high quality products is the same today as it was in 1955. We're extremely proud of our legacy for solutions that can last decades, and we'll continue to work tirelessly to ensure this reputation for reliability and trust continues, for life.

iNX® Powered Stretcher & Loading System

Product Overview
The iNX Stretcher and iNLINE Loading System is designed to enhance operator safety by effectively eliminating lifting. Now you can lift, lower, load and unload with the push of a button, taking the strain off your back.

Dual, powered actuators maximise tip stability and lift loads up to 700 lb.

Simple one-touch operation helps you stay focused on the task at hand.

Telescoping load frame maximises manoeuvrability in tight spaces.

Sealed memory foam mattress

SAE J3027 compliant when the iNX is fastened with the iNLINE fastening system.

Integrated Charging System eliminates the need for battery management. Auto-shut off when the iNX is docked prevents accidental operation in-vehicle.

Integrated Loading System enables you to stop lifting and to load and unload at the push of a button

Specifications

	Length Max	Length Min	Weight	Weight Capacity	Power
iNX	81" (2057 mm)	63" (1600 mm)	203 lb (92 kg)	700 lb (318 kg)	36 Volt

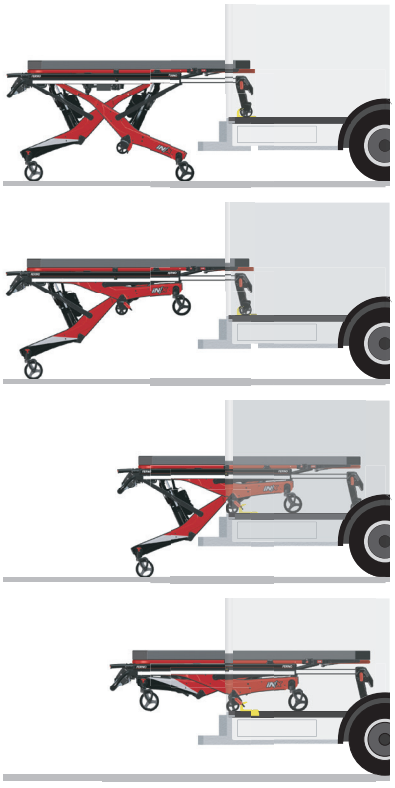

iNLINE Fastening System

The iNLINE Fastening System meets SAE J3027 and exceeds worldwide standards.

Available in varying lengths to suit differing vehicle sizes, the iNLINE Fastening System glides the iNX into position when loading and unloading. Its design allows for extreme loading and unloading approach angles.

SX Surface Xtender *FWESX*

The SX Surface Xtender increases the width of the stretcher surface to accommodate larger body shapes.

It features five adjustable locked positions plus an unlocked, lowered position that allows the SX to be positioned out of the way for transfer of the deceased and does not interfere with loading and unloading. Injection moulded with smooth, clean lines for easy cleaning.

Reducing Risk, Injury & Cost

In 2025, the US Occupational Safety and Health Administration estimated the direct cost to an employer for an employees strain injury was $67,000.

Coupled with the ever increasing adult obesity rate, mortuary professionals are at growing risk of injury. whilst mortuary organizations themselves are at risk of having to pay considerable insurance and compensation costs for injuries to mortuary professionals.

With powered mortuary cots, mortuary organizations can alleviate the financial risk thanks to reducing the risk of strain injuries, relying on the technology to lift deceased persons, not employees.

Product Overview
With an extra-long wheel base to provide exceptional stability, its slide-action leg lock securely locks both sets of legs simultaneously when folded. Its legs fold and lock, while it can also be used as a two-wheeled stretcher. Stair glides reduce wear on the cot and promote smooth movement down stairs. The cot is also wide enough to accommodate a portable stretcher. Comes complete with a FERNO Model 372 one-inch burgundy mattress and two Model 430 five-foot-long, two-piece, black quick-release restraint straps. Other accessories are available.

Key Features
- Extra long wheel base for stability
- Slide action leg lock
- Can be used as two-wheeled stretcher
- Stair glides reduce wear and tear

Model 28 FERNO Flex Roll-In Chair Cot

Features & Accessories

2-Piece Restraints
0313892

Product Overview
The heavy-duty Model 28 FERNO-Flex™ Roll-In Chair Cot quickly converts to any of five positions for easy maneuvering in narrow hallways, elevators, and other confined spaces.

Offering versatile decedent transport, the Model 28 is ideal in challenging environments avoiding the need to transfer decedent to other carrying devices.

The Model 28 has an adjustable backrest with eight positions from 0 to 75 degrees, offering flexibility for the available space you're presented with on each call. Mattress available in burgundy only.

Key Features
- Single-release mechanism
- Legs automatically lock
- All-metal frame construction
- Swing down sidearms

"We've used FERNO products for decades - they're very durable and hold up really well for a long time. We particularly like the ease of operation to load/unload from our van.

The experience with FERNO is excellent - it just makes our job easier."

Craig Edgington
Edgington Funeral Homes

Model 372 Cot Mattress

The Model 372 Cot Mattress is constructed with a one-inch polyurethane, foam pad covered with vinyl-coated nylon. The cover is wear and abrasion-resistant, bacteriostatic, fire-resistant, and easy to clean. Available in burgundy. Fits model 24 and 23 cots.

Model 414-OL
Over-The-Lap Restraints

Over-The-Lap Wrist Restraints fasten to both sides of the cot frame and hold the patient's wrists on the lap. Each side is adjustable so the patient's wrists can be centered over the midline of the body. Wrists are secured independently by hook-and-loop closures. Made of 2" nylon webbing and chrome-plated hardware. The main strap is 68" (173 cm), and the wrist straps are 15" (39 cm). Available in orange and burgundy.

Product	SKU
Model 414-OL Over-The-Lap Restraints, Orange	0312320

Model 414-R
Wrist Restraints – Cot Sidearm

When fastened to the side frame, this restraint holds the patient's wrist securely to the top of the side frame. Made of 2" wide nylon webbing, the restraints come as a pair in orange or burgundy.

Product	SKU
Model 414-R Wrist Restraints - Cot Sidearm, Orange	0312310

Model 414-AR Ankle Restraints

FERNO's Ankle Restraints fasten to both sides of the cot frame to hold the deceased person's ankles securely in place. Independent restraints allow each leg to be individually secured or released from the hook-and-loop closures. Constructed of 2" nylon webbing. Restraints are 41" (104 cm) long.
Available in orange and burgundy.

Product	SKU
Model 415-AR Ankle Restraints, Orange	0312330

Model 430 Two-Piece Restraints

These restraints are made of 2" nylon webbing with quick-release, automotive type, chrome-plated metal buckles that resist rust and corrosion. Push-button operation allows secure fastening and easy release. Hemmed tab prevents strap from being pulled free of buckle.
Available in black only. Available in either 5' or 7' lengths.

Product	SKU
Model 430, 5' Two-Piece Restraints, Black	0313892
Model 430, 7' Two-Piece Restraints, Black	0313911

Model 5 Mortuary Fastener

This fastener is permanently mounted to floor plates to secure cots and stretchers, including the Models 23, 24, 24H, 24-MAXX®, 24-MiniMAXX® and 27-1 Series. Thumbscrews permit easy installation and removal. The rear-fastener hook stores flat when not in use and rotates up to fasten as a ratchet mechanism when needed. Specify your stretcher model when ordering. Not for use in crash-stable applications.

Product	SKU
Model 5 Fastener	0565000

Model 533 Wheel Cups

Wheel cups inhibit stretcher movement within a vehicle. Polished aluminum wheel cups are available individually for 4" and 7" (wheelchair) wheels.

Product	SKU
Model 533, 4" Wheel Cups (each)	0815334

Model 534/535 Post Cups

Post cups hold stretcher posts firmly in place on the vehicle floor. Available in pairs only, these cups are permanently mounted.

Crypton® Fabrics

FERNO Covers and Pouches are now made with patented Crypton® Aria and Suede. Every fiber is encapsulated with a stain, odor and bacteria-resistant barrier. The breathable moisture barrier is permanently integrated into the fabric, ensuring a complete and proven performance system from the fibers up. Nothing can penetrate the fibers or the barrier. The Aria and Suede may be spot cleaned or machine washed when excessively soiled.

Model 101-H Hydraulic Operating Table

Product Overview
Allows quick height and angle adjustments using the three foot pedals. Either end of the table may be raised or lowered to any position between 28½" and 40½" above the floor for easy preparation from a standing or sitting position. The table top is convex to drain fluids away from the body and an extra-deep trough runs the perimeter of the table, reducing the need for splash guards. A drain in the center of the foot end quickly eliminates fluids from the table. Four 8" swivel wheels lock instantly with a single foot pedal or one set of wheels locks directionally for easy rolling. Type 304 stainless steel with a 3 finish ensures easy maintenance and a solid surface base eliminates crevices where liquids can accumulate.

Key Features
- Three foot pedals for quick height and angle adjustments
- Convex table top to drain fluids away from body
- Extra-deep trough reduces need for splash guards
- Center drain at foot end to eliminate fluids
- Four wheels lock instantly with a single foot pedal
- 304 stainless steel ensure's ease of maintenance

Cemetery Church Truck

Features & Accessories

Folds Compactly

8" Pneumatic Wheels

Product Overview

Made of strong, rectangular aluminum tubing, featuring a protective gloss-anodized finish, keeps the truck looking new and makes it easy to clean. The stable x-frame undercarriage and rubber bumpers help secure the casket. Large, eight-inch pneumatic wheels roll easily over grass or rough terrain. With four swivel wheels allowing for greater maneuverability and two wheel locks. When moved without a casket a special built-in center handle allows the truck to be pushed, pulled or carried. Includes four side handles for lifting over curbs.

The Cemetery Church Truck locks into four positions, allowing a wide range of casket sizes to be displayed with one truck. The additional length increases stability and makes an attractive appearance. Available in silver, bronze, gold, blue-grey or onyx finish.

Not compatible with drape frames or drapes.

Key Features

- Superior craftsmanship to maintain finish and allow for easy cleaning
- Stable x-frame to secure casket
- Suitable for grass or rough terrain
- Locks into four positions to allow for a range of casket sizes

Model 87
Frameless Church Truck Drapes

Designed specifically for the FERNO Model 87 Church Truck, our Frameless Church Truck Drapes offer a faster, more lightweight, and more compact solution to enhance presentation.

Sitting directly over the Model 87, the frameless design helps reduce setup time and avoids the need to purchase, transport, store and fit an additional frame.

Available in both Black and Burgundy and presented in crushed velvet, they offer a subtle and respectful finish to a highly convenient and excellent quality product solution.

The Frameless Church Truck Drapes are designed to work perfectly with the expanding nature of the Model 87, helping remain extremely practical and easy to deploy while maintaining a smart, dignified appearance during services.

FERNO® CARE

SERVICE, SUPPORT AND TRAINING FOR THE EQUIPMENT YOU RELY ON.

At FERNO, we have spent decades partnering with funeral professionals and understand that purchasing mortuary equipment is the beginning of a long-term relationship, not the end of a transaction. We are committed to supporting customers throughout the life of their FERNO products, helping maximize performance, reliability and long-term value via the FERNO CARE program.

FERNO CARE is the factory-backed service and support porgram for FERNO EMS and Mortuary equipment, delivering preventive maintenance, expert repairs, genuine replacement parts, technical support, and professional training to help maximize equipment performance and longevity.

Whether you're supporting a single funeral home, a hospital mortuary, or a large network of locations, FERNO CARE helps minimize unexpected equipment failure, protects your investment, and ensures every transfer and operation is carried out with the dignity, respect and professionalism families expect.

COT CARE® OPERATIONS AND REPAIR TRAINING PROGRAM

Designed for organizations seeking a deeper understanding of their equipment, the program combines classroom instruction with hands-on experience, with a strong focus on preventive maintenance and service best practices.
Conducted at FERNO's Global Headquarters in Wilmington, Ohio, this one-day program provides in-depth training on:

- Practical, hands-on instruction using equipment models that match those in your funeral home or mortuary.
- Customized instruction tailored for your staff, workflow, and operational requirements.
- Access to technical resources, including parts lists, service bulletins, and training materials.
- Expert guidance to help maximize equipment performance and reliability.
- Training certification upon successful completion.

PARTS ORDERING AND FULFILMENT

Keep your equipment operating as intended with genuine FERNO replacement parts and assemblies. Our service specialists can assist with parts identification, ordering, and fulfillment, helping you quickly source the components needed to complete repairs with confidence.

REPAIR DEPOT

FERNO offers customers the option to send their stretcher to our factory for expert inspection, maintenance, updates, and repairs. Factory service may be requested directly by the customer or recommended by FERNO based on the equipment's condition or service requirements.
Once your equipment arrives, our technicians will perform a comprehensive evaluation and provide a detailed assessment, including recommended repairs, associated costs, and expected turnaround time.
Our goal is to complete all necessary repairs and return your equipment within two weeks, so your team can continue providing uninterrupted service.

AUTHORIZED THIRD-PARTY SERVICE

To provide convenient local support, FERNO works with a network of authorized third-party service providers specializing in the maintenance and repair of FERNO mortuary equipment. Trained technicians are available in designated regions to perform on-site inspections, preventive maintenance, and repairs at your facility.

This service offers a streamlined approach to equipment care, hleping ensure your products remain safe, reliable, and ready for daily use.

Contact FERNO Technical Support for assistance finding an authorized service provider near you.

FERNO Makes it Easy to Place Your Order

To locate the nearest distributor or sales representative in your area: Call +1-877-733-0911 or contact sales@ferno.com. A Customer Relations Representative will ensure that your requirements are met.

Terms of Sale

Government-Funded Agencies will be granted "Net 30 Day" Open Accounts by providing the following information:

1. Name of government agency
2. Telephone and FAX numbers
3. Billing address (must be domestic location)
4. Shipping address
5. List of authorized purchasers (if restricted)
6. Purchase Order number requirements

Payment may also be made using Federal SmartPay Credit Cards, which will be charged at the time your order is shipped.

Freight Policy/Shipping

All orders will be shipped by the most efficient and cost-effective ground transportation (UPS, DHL, truck, or USPS). Orders are shipped F.O.B. Wilmington, Ohio. Shipping charges are prepaid and will be added to the invoice. Airfreight or other special shipping arrangements can be made at the customer's request. Special shipping charges are prepaid and will be added to the invoice. Special-order and out-of-stock items will be back ordered and shipped as soon as possible; the customer will be notified of back orders. Partial orders will be shipped unless the customer provides other instructions. Additional shipping charges may apply to oversized items

Returning Merchandise

FERNO Group Inc. reserves the right to refuse any unauthorized return shipment. Buyer must obtain a RMA (Return Material Authorization) number from FERNO Group Inc. prior to return. FERNO Group Inc. reserves the right to charge a 20% restocking fee on all return shipments.

Damaged Goods Claims

All claims for merchandise that is damaged during transit must be made by the customer directly to the carrier within 10 days of receipt of goods. Please save all boxes and packing material until you have filed your claim.

Disclaimers

Latex Content: FERNO relies on product information received from manufacturers and can accept no liability for misinformation or for changes in product content. FERNO strongly recommends that customers read all product labels for latex content information before using the products. Product Changes: FERNO reserves the right to change product specifications, price, and availability without notice.

Limited Warranty

For 70 years funeral home professionals have relied on FERNO products because FERNO stands behind its products. FERNO Group Inc. warranties all mortuary equipment (see limited warranty below) to be free from defects in material and workmanship for a full two years, the longest in the industry. Under this limited warranty, FERNO will repair, replace or refund the purchase price of any FERNO piece of equipment as FERNO deems appropriate.

FERNO mortuary products are warranted to be free from defects in material and workmanship as follows:

- External finishes (gelcoat, paint, powder coat, decals, etc.) are warranted for 90 days.
- Soft goods (webbing, vinyl, fabric, foam, etc.) are warranted for 90 days.
- Mortuary products (except for hydraulic parts and soft goods) are warranted for 2 years.

FERNO repairs are warranted for 90 days from the date of repair. This limited warranty applies only when you use and care for the product as described in the instructions provided with the product. Improper use and care may void this warranty. The warranty period begins the date the product was first purchased by you as the original end-user or the date you as the original end-user receive it if you have proof of the delivery date. The limited warranty is not transferable or assignable in any manner. Shipping charges are not covered by this limited warranty. Ferno is not liable for shipping damages or damages sustained through using the product.

Non-FERNO products sold by FERNO retain the product manufacturer's original warranties and guarantees. Such warranties and guarantees, if any, are solely
those of the product manufacturer. Ferno offers no warranties or guarantees of any kind additional to those of the product manufacturer, nor does Ferno assume any liability for products manufactured by others.

Limitation of Liability

If a product is proven defective, Ferno will repair or replace it, or, at its option, refund the item's purchase price. In no event is FERNO liable for more than the selling price of the product. The purchaser accepts these terms in lieu of all damages. Except for the limited warranty above, FERNO makes no other warranties, either expressed or implied. FERNO makes no implied warranties of merchantability and fitness for a particular purpose for its own product or for the products of others. In no event will FERNO be liable for any indirect or consequential damages sustained in connection with the delivery, use, or performance of its products. Under breach of limited warranty, any legal action for breach of the limited warranty must be filed within one year of the date the breach occurs or should have been discovered.

Limited Warranty Claims and Disputes

Contact FERNO Customer Service promptly if you receive a product from FERNO that you suspect is defective. A representative will assist you with the claim procedure. Before sending any product to FERNO, obtain a return authorization number from FERNO Customer Service.

Support

If at any time you require additional information, need technical specifications, have repair or maintenance questions or need any other information about our products, contact our Technical Support Department by calling +1-800-733-3766 or by emailing us at support@ferno.com. We have knowledgeable, dedicated Technical Support staff available to assist you regarding any question that you may have about your Ferno product.

Service

FERNO provides a number of service options to mortuary customers to aid in maintaining their FERNO products. Preventive maintenance, maintenance service and repair service is available nationwide through authorized service providers. Skilled technicians operating from service centers across the country will come right to your location.

Maintenance

In addition to providing repair services, FERNO authorized service partners also provide preventive maintenance services for FERNO products. Prepaid preventive maintenance contracts are available that include biannual or quarterly cleanings, complete inspections and preventive maintenance checks and service all for one low fee.

A full list of authorized service providers can be found at:
